

PAVO

Dear Colleague

The Powys Community Health & Wellbeing Coordination Service helps people in Powys (aged 18+) and their families or carers, to access community-level services and activities that will help them maintain independent lives and which help prevent their circumstances deteriorating to a point where they might need higher level health or social care services.

The service can also help support people when they return to home from hospital by helping other Third Sector services, such as Red Cross, identify additional local services that may be needed.

To meet this need PAVO has been providing an independent *Third Sector Broker Service* for Powys operating out of *Powys People Direct*; Powys County Council's (PCC) single point of access contact service for individuals needing support from social services.

PAVO has now changed the service to become the **[Community Health and Well-Being Coordination Service](#)** and it is now also being provided at a community level in many areas of Powys by locally based ***Community Connectors***, as well as through the central point of contact in *Powys People Direct*. *For more information follow the below links:*
