Dear All

Please find attached the draft Powys Health and Care Strategy which was published on 25th January 2017 for a period of engagement until 21st February 2017. We would be very grateful for your supporting in sharing this with your network of contacts.

The media statement is attached, which contains the core launch message in both English and Welsh.

Also attached is the "Everyday" version of the draft Health and Care Strategy for Powys in both English and Welsh.

Ideally Powys Teaching Health Board and Powys County Council are looking to encourage people to:

- find out more from a dedicated webpage at <http://bit.ly/powyshcs> (English) and <http://bit.ly/powyssig> (Welsh)
- share their views through an online survey at www.surveymonkey.com/r/powyshcs

Note that these are the main headline materials but alongside this you will find on the website a set of supporting materials. This includes a suite of 21 two-page summary briefings covering issues such as Heart Health, Carers, Respiratory Conditions and more. Some people may feel more comfortable engaging around their experience of a particular condition or life experience, rather than around the more general principles within the Draft Strategy.

These are available as follows:

- English: <http://www.powysthb.wales.nhs.uk/health-and-care-strategy-summaries>
- Cymraeg: <http://www.biapowys.cymru.nhs.uk/crynodeb> [with apologies we are awaiting two Welsh translations – heart health and mental health]

People are encouraged to contact the Health and Care Strategy Team at planning.powys@wales.nhs.uk if they have any questions.

Kind Regards

Andrea Blayney
