- REW leaflet - English.pdf (109 KB)

Dear Mrs Lorraine Stanton

I work for Resource Efficient Wales, a Welsh Government service which offers free impartial energy advice to households. We are keen to increase uptake across Powys and I was hoping you could help promote the service in Manafon. Is this something you might be interested in?

To give you a bit more information we provide:

- Tailored advice on simple behaviour changes and low cost improvements, to improving insulation or heating systems.
- Assistance on how to lower your energy bills- one of our clients saved £4000 through our recommendations.
- Information on what local and national funding resources are available for those considering renewable technologies. Along with advice on finding accredited installers.

If you'd like a chat about possible links just get in touch or you can find more information on our website www.resourceefficient.gov.wales

Many thanks

Alan Macnaughton
